What is the interest rate?

Minimum balance	Gross*/AER**%
£10+	6.00

Interest is calculated daily and may be visible on your account from the 24th of the month. This won't be available to you until the due date of the last working day of the applicable month.

*Interest is paid without tax deducted. Some savers will be required to pay tax on savings interest; this should be arranged directly with HMRC through your tax return.

**AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and added once each year.

Can MHBS change the interest rate?

This account has a fixed rate of interest from the date the account is funded until the maturity date.

What would the estimated balance be after 12 months?

£3,096.63

This projection is for illustrative purposes only.

This is based on 12 monthly deposits of £250 made at the beginning of the month and assumes no withdrawals are made, no changes are made to the current interest rate and interest earned is added to the account.

Can I withdraw money?

On maturity the account changes to our current easy access account and interest rate, or the nearest equivalent if this account is no longer available, without further notification.
