Summary Box

What is the interest rate?

Minimum balance	Gross*/AER**%
£5,000+	5.30

Interest is calculated daily and may be visible on your account from the 24th of the month. This won't be available to you until the due date of the last working day of the applicable month.

Interest can be added to this bond or paid to your bank account. Once added to the account interest becomes subject to the same withdrawal conditions as the capital.

*Interest is paid without tax deducted. Some savers will be required to pay tax on savings interest; this should be arranged directly with HMRC through your tax return.

**AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and added once each year.

Can MHBS change the interest rate?

This account has a fixed rate of interest from the date the account is funded until the maturity date.

What would the estimated balance be on maturity based on a £5,000 deposit?

£5,265.00

This projection is for illustrative purposes only.

This would be the balance after 12 months, assuming interest earned is added to the account.
