## Product Terms and Conditions

### Summary Box

What is the interest rate?

Minimum balance	Gross*/AER**%*
£1+	1.50

Interest is calculated daily and may be visible on your account from the 24th of the month. This won't be available to you until the due date of the last working day of the applicable month.

No interest is paid on balances that fall below the minimum of £1.

\*Interest is paid without tax deducted. Some savers will be required to pay tax on savings interest; this should be arranged directly with HMRC through your tax return.

\*\*AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and added once each year.

Can MHBS change the interest rate?

The interest rate is variable which means we can increase or decrease the rate at any time.

For more details about why we may change the rate, and how and when we will let you know about a change, please refer to the Interest section of the General Savings Account Terms and Conditions.

What would the estimated balance be after 12 months based on a £1,000 deposit?

£1,015.00

This projection is for illustrative purposes only.

If £1,000 was deposited on 1 November, the account balance would be £1,015.00 on 31 October the following year. This assumes no further deposits or withdrawals are made, no changes are made to the interest rate and interest earned is added to the account.
